

100kW Rental Suit Case Load Bank

Cannon L-100D

PORTABLE LOAD BANK

THE L-100D LOAD BANK is designed to provide a temporary load for field servicing and testing 400HZ 200VAC ground power units and power supplies. This load bank is air cooled and completely self contained. The unit can load three phase 200VAC up to 109KW in 9KW steps.

PRODUCT FEATURES

- 400hz Aircraft connector
- 28V Transformer to provide voltage for interlock
- Meter: Digital Meter to measure volts, amps, frequency, kw and power factor
- Power indicator lights
- Thermal protection
- Phase rotation indicator
- Plug test pins for connecting test leads
- E and F circuit indicators
- Carrying case with wheels and extendable handle

PRODUCT SPECIFICATIONS

Load Steps	10, 19, 28, 37, 46, 55, 64, 73, 82, 91, 100, 109kW, 200VAC, 400 Hz, 3 phase
Control Power Transformer	self contained
Cooling	air cooled
Safety Circuits	thermal protection.
Dimensions (W×L×H)	8×22×16 in.
Weight	80 lbs.
