

10 Ton Rental Air Cooled Chiller Silverstar SAC-10

Industrial Air Cooled Chiller

Silverstar chillers are widely used in plastic injection molding applications and processes cooling. They are also widely used in any close looping applications and process that request circulated chilled water. These chillers come as a complete cased closed-loop system. Includes compressor, condenser, pump station, stainless steel tank thermal insulation, cooling fans and piping.

Product Features

- Digital operation control
- Copeland compressor
- Brazed plate evaporator
- Stainless steel tank
- Motors overloading protection
- Indoor design, quiet operation
- Low flow bypass
- Low maintenance, easy operation

Product Specifications

Performance Data

Cooling Capacity	120,000 BTU/hr.
Piping Connection	1.5 in. Supply 1.5 in. Return
Pump HP	2HP
Max Flow Rate	60 gpm
Design Flow Rate	24 gpm
Tank Capacity	34 gal.
Refrigerant	R407C
Operating Conditions	42°- 77°F

Electrical

Requirements	230V, 3 phase
Main Breaker	50 Amps

Dimensions

Width×Length×Height	35×65×50 in.
Weight	992 lbs.
