

## 400,000 BTU Direct Fired Rental Heater Frost Fighter DF1500

### Economical, powerful heating for well-ventilated applications

Direct Fired Heating is ideal for well vented applications requiring a lot of heat, our direct fired heaters provide the most cost effective option. We use superior components which enable us to manufacture the highest quality Direct Fired heating unit in its class. We are proud of the fact that Frost Fighter Direct Fired units deliver the lowest emissions in the industry.

### Product Features

- Fully Insulated jacket - Cool to the Touch, - plus enhanced efficiency and Lowest Emissions in the Industry
- ETL 2009 International Approved
- Powder Coated
- Thermostatically Controlled
- Low Pressure Regulator on Manifold
- Standard Wheels for easy mobility
- Easy Ball Valve Changeover from Propane to Natural Gas
- Stainless Steel Burner for Higher Efficiency & Durability

### Product Specifications

#### Performance Data

CFM	2,500
Temp Rise	up to 180°F
BTU's Per Hour	400,000

#### Electrical

Requirements	120V
FLA	15 Amps

#### Dimensions

Width×Depth×Height	31×51×33 in.
Weight	195 lbs.
