

500 Gallon Rental Fuel Tank Western Global- TransCube 20TCG

TRANSPORTABLE FUEL STORAGE TANK

The TransCube Global 20TCG is a fully transportable, multi-tasking on-site fuel deployment solution. This 552 gallon tank acts as a direct supply to stationary diesel engines or on-demand refueling equipment.

PRODUCT SPECIFICATIONS

Capacity	552 gallons
Dimensions (L×W×H)	90.24×44.88×51.91 in.
Weight (empty)	1,815 lbs.
Weight (full)	6,424 lbs.

PRODUCT FEATURES

- **Transportable** - The TransCube is DOT approved to allow handling while the tank is full and features full load lifting eyes, forklift pockets and internal baffles.
- **Environmentally Safe** - The TransCube is UL 142 approved, double-walled and 110% contained to eliminate the need for spill pans.
- **Accessible** - Access manway enables easy maintenance and inspection of inner tank. Removable inner tank allows for servicing and cleaning.
- **Secure** - Lockable equipment cabinet locks and secures fuel equipment and fuel ports to run up to 3 pieces of diesel-powered equipment and pump fuel all while the cabinet is locked.
- **Stackable** - Easily stackable (2)-high full of fuel and (3)-high empty to reduce storage space requirements.
