

## 50Kva-40kW Rental Generator Doosan G50

### Providing Reliable Power

Doosan Portable Power designed the G50WDO-T4F generator with the customer in mind. Easy-to-use operator interface features neatly laid-out gauges and diagnostic displays that allow users to effectively monitor the generator and quickly diagnose any problems encountered. The G50 offers multiple connection options for ultimate versatility.

The G50 generator from Doosan Portable Power is powered by a Doosan D24 engine that delivers fuel economy and performance while ensuring the compliance with the latest emissions standards. The Marelli alternator upholds Doosan Portable Power's dedication to reliability and efficiency. Marelli alternators provide excellent motor starting capability, stable voltage regulation and fast transient response. The G50 generator from Doosan Portable Power provides the unmatched versatility to support any application.
