

## 800 Amp Rental Transfer Switch Olympian HTS System 800

### Seamless Energy Transfer

Olympian automatic transfer switches are rigorously tested for performance, robustly designed, and built to the strictest standards of quality to consistently execute a reliable power transfer when it is most needed. Olympian automatic transfer switches provide a seamless energy transfer to a backup power system and feature advanced technology that precisely monitors voltage levels, allowing for an instantaneous return to the utility source once power is returned so that the generator runs no longer than it has to.

### PRODUCT SPECIFICATIONS

<b>Amp</b>	800
<b>Voltage</b>	277/480V
<b>Enclosure Type</b>	3R outdoor rated
<b>Primary Input Connection</b>	male panel-mount CamLock
<b>Secondary Input Connection</b>	male panel-mount CamLock
<b>Load Output Connection</b>	female panel-mount CamLock
<b>Dimensions (W×L×H)</b>	36×36×21 in.
<b>Weight</b>	386 lbs.
